CAREER OBJECTIVES

A highly motivated Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and React, complemented by experience in Bootstrap for responsive design. Skilled in creating dynamic, user-friendly, and visually appealing web applications, with a focus on clean code and performance optimization.

PROJECTS

○ YouTube CLone

Front-end : React.js, HTML, CSS, JavaScript

Developed a frontend YouTube clone featuring a responsive design, recommended video components, a functional header, sidebar, and search page. Demonstrated proficiency in component-based architecture and modern web development practices.

○ Ecommerce Project

WordPress

I created an E-commerce Project using WordPress that facilitates the online sale of makeup, cosmetics, and food products. The platform features an intuitive design, secure payment integration, and seamless navigation to enhance the user shopping experience.
